Training Services

Lack of trained personnel in the field at site lead to unforeseen accidents in recent past at various places causing damage to precious lives and properties. The firm believes in training and educating existing manpower available and deployed at site. The cost of training is the lowest in the industry and the training effectiveness is at par with the best in the industry. The training will not only ensure that what a fire fighter has to do in case of emergency or exigency but it will also guide what the others needs to do, when fire breaks out. The package of training will include Fire Drill, and Evacuation drill. The firm is ready to help the clients in identifying fire fighters, first aiders and also ready to establish a internal Fire Organization handing over handouts to Fire coordinators, Incident Controllers, Fire Fighters, First Aiders, Fire Wardens, Quick Reaction Team, Rescuers with their role and responsibilities.
